

Product Data

Multi-Purpose Rebuild & Repair System

Belzona® 8111 (Mouldable Wood) is a two component multi-functional material for the rebuilding and bonding of construction materials and the casting of damaged components.

This versatile fast curing material offers outstanding adhesion to most rigid substrates.

Belzona® 8111 (Mouldable Wood) will:

- Simplify maintenance procedures
- Avoid costly structural rebuild
- Reduce downtime
- Bond strongly to most rigid substrates

Belzona® 8111 (Mouldable Wood) is suitable for internal and external application and has excellent electrical properties, making it ideal for many electrical insulation problems.

Belzona® 8111 Mouldable Wood

Rebuilding Industrial
Components

Rotted Timber Repairs

Restoring Historical Structures

Repairing Damaged Fibre Glass

Applications for Belzona® 8111 (Mouldable Wood) include:

- Electrical insulation & components
- Rotted timber
- Historical restorations
- Industrial components
- Fibreglass mouldings
- Floors
- Ramps
- Door frames
- Windows

Belzona® provides the solution to your repair and maintenance needs.

BELZONA®
Repair • Protect • Improve

Belzona® 8111 (Mouldable Wood) is:

Simple

- Mix to required consistency or by pouring; mix just the right amount
- Fast cure
- Can be drilled, tapped and sanded; overprinted within 30 minutes of application

Versatile

- Apply in thin or thick sections in one operation
- Can be finished to a feather edge
- Suitable for internal and external application
- Can be stained or tinted to match substrate

Effective

- Good impact and abrasion resistance
- Minimal shrinkage
- Resists attack by fungus, bacteria, water
- Does not corrode
- Excellent electrical resistance
- Outstanding adhesion
